

open calls

Be part of it!

Submissions (in german or english) for the next monthly presentation are possible until the end of the previous month.

First presentation: **31.1.2021**
therefore first **submission deadline** by: **31.12.2020**

● chief call

Have you created or are planning a particularly interesting future space in your city? An area that is to be adapted or redesigned? Where very special or prototypical problems are to be addressed?

Every month an exciting case will be presented and discussed!

● products & services

Do you offer a smart product or service useful for Smart City projects? We are looking for smart exciting approaches for all possible areas of city life.

Every month a new product/service will be added to the URBAN MENUS platform!

● products & services

We are looking for the

120 smartest Ideas for daily life in the city of today and tomorrow

Show the world how your solution can make our cities smarter, how it can bring more happiness and safety, promote innovation, be economically viable, and promote harmony with natural cycles!

Every month a new product/service will be added to the **URBAN MENUS Platform**

The award-winning product or service is presented directly in URBAN MENUS, in an urban context in 3D.

The solution also receives a free URBAN MENUS analysis, the results of which can be used for marketing purposes.

In addition to the award winners, we will invite up to 120 idea contributors to participate in the design of the Smart City platform. This means having a say in how ideas / products / services could be submitted, how the further process would have to be carried out, what functions the platform should have so that smart ideas can be better implemented - with maximum impact for everyone.

How is the selection made?

Choices are made transparently based on these **criteria**:

- URBAN MENUS Algorithm, which covers the 5 topics happiness, safety, innovation, profitability, circularity – we're searching for projects with different focal points
- Diversity of products / services, because we want to create an exciting, broad platform that is neither specialized in one topic nor one city size

Product / service and submitter

Submitting organization

Contact person

Name of product / service

Product and / or service

What can the product / service do? And who benefits from it? (Text max. 1000 characters)

Project phase

(Selection box: Prototype, Ready for the market)

How do you see the effects of your product / service concerning the following "future criteria" - please provide classification and justification in each case (Text max. 1000 characters)

Happiness

Safety
